New Milestone in New Delhi

York Authorized Service Centre Inaugurated Near Manesar

The road to better service just got shorter for North India. York India inaugurated its newest Authorized Service Centre near Manesar, along NH48. This moment that marked more than just a new beginning, it marked a commitment.

The event was graced by Mr. Alexander Geis, CEO & Chairman - SAF-Holland, Mr. Guru Sankar Chatterjee, MD - York India, Mr. Gurumukh Singh, Director - Sales & Marketing, along with Mr.

Nitin Nijhawan, North Regional Manager and Mr. Ankush Arora, Director - Auto Solutions.

With fleets across India shifting to pneumatic suspension systems, the need for specialised, well-equipped workshops is greater than ever. York stepped up - creating exclusive service centres designed to handle brake systems, chassis repairs, air suspensions and all York axle variants under one roof.

What makes this workshop special?

Dedicated Welding Bay

For structural repairs

Vehicle Inspection Pit

For deep undercarriage checks

High-Precision Tools

Including torque wrenches & pressure gauges

Backed by trained technicians, this facility promises faster turnaround, fewer breakdowns and peace of mind for every trailer operator.

Wheels of Trust

Shiva Transport - Best Customer Award Winner

In the heart of Jamshedpur, Shiva Transport started with a simple mission - to deliver reliably. Over time, the fleet has grown along with the trust of the customers. Today, with 205 York-equipped trailers, Shiva Transport continues to carry the weight of trust, forged over years on the road.

Their numbers speak for themselves:

**42 air suspension
trailers**

**163 54-ton
trailers**

**2.8 lakh km clocked by
the air suspension fleet**

**1.85 lakh km
by the 54-ton fleet**

But it's not just about distance, it's about their dedication. And that's why they were honoured with the Best Customer Award-a

celebration of performance, partnership and a shared journey on Indian roads.

Training Spotlight

York Technical & Service Training | April 28-30, 2025

Three days. One mission: Service excellence.

In the last week of April, York India hosted a focused training programme designed to strengthen the very foundation of our service.

Guided by our experienced trainers Mr. Aman Kumar Patel and Mr. Avinash Kumar Sharma and supported by Mr. Gurumukh Singh, Director - Sales & Marketing, the programme wasn't just about components and tools. It was about building capability, confidence and commitment. A special thanks to organisers

Mr. S. Karuppaiah and Mrs. Sneha Sarode for ensuring everything ran seamlessly, under the supervision of York's Service Head, Mr. Kalaikumaran.

Product Spotlight

Launching RS 17 Axle

Built for strength. Designed for performance.

With trailers now hauling up to 54 tonnes, every axle bears more than its share. Introducing **RS 17 - Road Samrat Axle**, launched in April 2025 as York's answer to the changing weight of Indian logistics.

Its high-strength rectangular beam, M24 bolts and reinforced spindle system make it built for heavy loads. The YPS wheel end system reduces deflection and increases tyre life even under pressure.

Specifications:

Model Number: 7651G	Capacity: 17 tonnes	Track Length: 1850 mm	Fitting: Outboard Drum	Wheel Stud: M24 x 10 nos. Ø335 mm PCD	Bearing: Ø89.6 mm (HM518445/10)	Beam Size: 165 x 150 mm (High Strength Rectangular Beam)
-------------------------------	-------------------------------	---------------------------------	----------------------------------	--	--	--

Key Features:

Built for Heavy Loads

M24 coarse thread studs and reinforced hub assembly

Enhanced Safety

Q-type brake system and triple return springs for quicker, more reliable braking

Longer Life, Less Maintenance

High life bearings and optional 4 lakh km grease pack

Lightweight Yet Strong

High tensile steel axle beam

Optimised for Efficiency

Better tyre life, easy access to low-cost spares

It is a smarter investment for fleets, offering better long-term value through reduced maintenance and increased lifespan of critical components.

Employee Birthdays & Celebrations

Celebrating our people is just as important as celebrating milestones. We recently celebrated our team's birthdays with cheers, cakes and warm moments shared together.

Every milestone, big or small, deserves a moment of joy.
